

Divyanshi Maheshwari

+91-9024150369 | divyaanshi1308@gmail.com | LinkedIn | GitHub

Education

Chandigarh University, Punjab, India

B.E. Computer Science (AI & ML)

Aug 2024 – Jun 2028

CGPA: 8.47/10

Central Academy Sr. Sec. School, Udaipur

Class XII (CBSE)

2024

93.20% (School Topper)

Experience & Leadership

Co-Founder — Novasphere

Student Initiative

Dec 2025 – Present

- Built a student-led platform simplifying complex technical concepts for peers
- Designed structured learning resources and guided students in problem-solving

CodeChef CU Chapter

Technical Team Member

Jan 2026 – Present

- Conducted problem-solving sessions focused on DSA and algorithmic thinking
- Created and explained coding problems to improve peer understanding

GeeksforGeeks CU Chapter

Graphic & UI/UX Lead

Oct 2024 – Present

- Designed UI/UX for 5+ technical events improving user engagement
- Created structured visual content to simplify technical communication

Liaison Officer — AI Fest 2026

VVIP Coordination

Feb 2026

- Managed logistics and real-time coordination for keynote speakers
- Ensured smooth execution of large-scale event operations

Projects

Verified AI Code Generation Pipeline

Feb 2026 – Present

- Built pipeline to validate AI-generated code using automated testing
- Identified logical inconsistencies to improve reliability
- Applied algorithmic problem-solving patterns and optimized solutions

LLM Watermarking Analysis (AI Trust)

Jan 2026 – Present

- Implemented watermarking techniques for AI-generated text detection
- Evaluated robustness under different decoding strategies

Musical Time Machine (Spotify API)

May 2025

- Built automation pipeline using Python and APIs with efficient data extraction
- Integrated Billboard scraping with Spotify OAuth API

SetEvent — Event Management Platform

Mar 2025

- Designed responsive frontend for event planning and guest management

IoT-Based Single Axis Solar Tracker

Jan 2025

- Built Arduino system using LDR sensors
- Improved solar efficiency by **33%**

Coding Profile

- Solved 100+ DSA problems across platforms (LeetCode, GFG) using structured problem-solving using Striver's A2Z DSA Sheet

Technical Skills

Languages: C++, Java, Python, JavaScript, SQL

Core: Data Structures & Algorithms, Problem Solving, OOP

Web: HTML, CSS, React.js, Node.js

Tools: Git, GitHub, VS Code, Arduino IDE
